WORKSHOP

MALARIA MOLECULAR SURVEILLANCE STUDY DESIGN

Workshop to be held before ASTMH 2024 in New Orleans

Topics covered:

- ✓ Study design and statistical power
- ✓ Sample size calculation
- ✓ Estimating prevalence and changes in prevalence
- ✓ Study design for multiple end-points
- ✓ Cluster-based study design and intra-cluster correlation
- ✓ Guest lectures from experts conducting MMS studies

Key workshop details:

-  11-12th November 2024 (before ASTMH)
-  Aloft New Orleans Downtown Hotel,
225 Baronne St, New Orleans, USA
-  Fully funded accommodation & meals

Audience:

-  Representatives of NMCPs & local research units who are currently conducting or in the process of designing malaria molecular surveillance studies

Apply by 25th September:
